

# Dandelion Tamers

A Project of the Friends of Harrison Hills Park

Do you love spending time in the garden? Are you an aspiring horticulturalist who could use a few pointers? If so, the Dandelion Tamers are for you!

Join other lovers of a beautiful garden for our monthly "dandelion taming" sessions to keep the gardens at the Harrison Hills Park Environmental Learning Center looking their best. As you help us tend the gardens, you will learn about invasive species, pollinator plants, native plant species, plants for rain gardens, shade-loving plants, etc... you get the idea! Whether you're an experienced gardener or a novice, you're sure to enjoy the conversation and camaraderie of the monthly Dandelion Tamers sessions. Don't miss this opportunity to make some plant loving friends! You may even be able to take home a plant or two!

Join Us at One or All Sessions!

Wednesday, May 8	Wednesday, June 5	Wednesday, July 10
5:30PM	5:30PM	5:30PM
<b>Pollinator Garden/ Invasive Species</b>	<b>Shade Lovers</b>	<b>Water Feature</b>
Our first session will focus on the butterfly garden and removing invasive species near the climbing structure.	Meet your fellow dandelion tamers to focus on the gardens to the north of the ELC and under the trees.	Keep it cool near the water as we tame the plants growing around the water feature.
