Friends of Harrison Hills Park

Come out of Hibernation!

Get in touch with nature by helping us to beautify the Outdoor Learning Center and raingarden.

Date: Saturday March 28
Time: 10AM to 2PM
Place: Harrison Hills Park
Environmental Learning Center

Volunteer for 1 or 2 hour work sessions or stay the entire time. Pizza will be served to all at Noon.

We are looking for nature inspired community spirited individuals or groups, to help maintain our park’s Environmental Learning Center and the Outdoor Classroom.

Outdoor activities include spreading a carpet of mulch in the outdoor classroom, uncovering the newly sprouting plants in the raingarden and other perennial gardens and staining the wooden structures. Indoor activities include dusting nature displays, sweeping floors and general cleaning.

Dust off your garden gloves and boots and come out to lend a hand!

Enjoy great exercise in a beautiful environment working with other friendly people who are willing to improve our indoor and outdoor nature educational facilities. Let us know if you can help!
